

Message from the Principal

Dear Students and Parent/Guardians,

Welcome to Dr. Ken Sauer School! We are a school of about 300 students in our second year of operation.

As a school we are committed to Alberta Education's Ministerial Order (#001/2013) which seeks to develop students who are engaged thinkers and ethical citizens with an entrepreneurial spirit. To do this, we believe that inclusion, inquiry, integration and cooperative learning are essential pillars to be established in our learning environment.

Our instructional planning is designed to create learning experiences that acknowledge our students as capable thinkers who have a voice in their learning. This means that instructional planning honours the diverse needs of our students as we try to plan for each child's success. You will see that we value learning as a life-long process that involves students, parents and staff as active learners. Lessons/Projects are thoughtfully designed to focus on curricular outcomes that are communicated clearly, with many opportunities for strategic feedback and assessment. This places reflection as one of the key elements of a growth based approach to learning.

Within our classrooms you will see a blend of individual, small and large group instruction that take place within and across curricular/subject areas. Students will be supported in gaining independence, through opportunities to engage both their critical and creative thinking capacities, along with building collaborative skills as they work with a variety of students.

We believe that learning is best achieved in an environment based on respectful, open and meaningful relationships; this is foundational in creating an effective learning space. True partnerships between and among staff, students, parents and community members are integral to supporting students' academic learning, fostering collaborative skills and creating responsible and independent learners.

Students and parents are encouraged to read the information thoroughly in our school handbook as it is an important information tool for you throughout the school year. A copy of the most up to date handbook will be available on our school website. If you have questions about anything in our handbook, please contact your child's teacher or school administration.

Mr. Jason Peters

Dear Parents/Guardians:

Re: Fair Notice and Process, Student Violence Threat Risk Assessment (VTRA)

In Medicine Hat Public School Division, the safety of our children is a top priority. Along with our community partners, we are committed to keeping our schools safe for students and staff. The community partners as members of the Southeast Alberta Regional Violence Threat Risk Assessment (VTRA) committee have developed a plan for responding to all situations in which students may be posing a threat to themselves or others, which includes all staff must report all threat related behaviours.

What is the purpose of a Violence Threat Risk Assessment (VTRA)?

The Violence Threat Risk Assessment (VTRA) is designed to be proactive in developing intervention/safety plans that address the emotional and physical safety of those involved; to ensure a full understanding of the context of the threat; and to begin to understand the factors that contribute to the threat-maker's behaviour.

What behaviours warrant a Violence Threat Risk Assessment (VTRA) to be initiated?

A threat is an expression of intent to do harm or act out violently against someone or something. Threats may be verbal, written, drawn, posted on the Internet, or made by gesture. Every threat must be taken seriously, thoroughly investigated and a response and follow through completed.

What is a Violence Threat Risk Assessment (VTRA) Team?

Each school has a multi-disciplinary VTRA team that includes the school administration, school based counselors and support staff, and may also include district resource staff and community partners (i.e. police, mental health practitioners). It is important for all parties to engage in the VTRA process. If for some reason there is reluctance to participate in the process, by the threat-maker or the parent/guardian, the threat assessment will still continue to ensure a safe and caring learning environment for all.

What happens in a Violence Threat Risk Assessment (VTRA)?

The process of a VTRA begins when threat making behaviours are reported. The VTRA protocol is then activated. Interviews will be held with the student(s), the threat-maker, parents, and staff to determine the level of risk and develop an appropriate response to the incident. An intervention plan will be developed and follow-up meetings will occur, as deemed necessary, to ensure that interventions are supporting all those involved.

This letter is intended to serve our community with fair notice that we, as a school district, will not accept "no response" to a threat in our schools. We are proud to be able to provide this level of support to our school communities and we are fortunate to have the commitment of our community partners. If there are any questions, please feel free to contact your school administrator, or further information can be found on the district website.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. Davidson", is written over a blue horizontal line.

Mark Davidson
Superintendent

2018-2019 School Year

Month	Dates
September	4—1 st Day of School 27—Terry Fox School Run
